

FREQUENCY SCANNING COORDINATION PROTOCOL

This protocol made on this 9th day of June 2016, by and between:

The Regulatory Administrations of:

St. Maarten, herein represented by **Mr. A. Carty**

France -Saint Martin and Saint Barthélemy, herein represented by **Mr. C. Perros**

Anguilla, herein represented by **Messrs. L. Franklin and K. Banks**

The State of the Netherlands -St. Eustatius and Saba, herein represented by **Mr. O.F.V. de Bruyne**

Hereinafter jointly or severally, interchangeably referred to as Parties or Party

The Regulatory entities mentioned afore have expressed the need and the desire to coordinate their frequency scanning activities, to maximize the gathering and sharing of information relating to the utilization of frequency use in their respective mobile industries;

The Regulatory entities party to this Protocol have so decided to detail and formalize their intent to coordinate frequency scanning undertakings as set forth hereinafter;

1.0. The objective:

Parties contributing resources and extending authorizations shall conduct frequency scanning in a structured but unannounced manner, *(based on their mobile-, FM-UHF frequency coordination agreements and/or DVB-T)*, in their respective territories. In so far necessary resources available to one party, shall be utilized for the benefit of any other party indicating so the need for such resources to conduct the frequency scanning in its territory. In addition hereto parties shall compile and share the data gathered from all scanning activities with each other.

2.0. The Procedure:

Parties agree to establish the format to be utilized by all for compilation of frequency scanning activities conducted in their territories. The frequency scanning activities shall be undertaken in a manner to ensure the proper compilation of information as required per the agreed upon measurement report format. Parties shall through the use of this standard measurement report exchange compiled data with each other. Parties shall furthermore timely cooperate and exchange relevant authorizations and sim-cards to facilitate scanning activities to be executed. Completed measurement reports, shall solely be shared with third parties, after ratification of such report by the relevant regulatory entity for its territory.

3.0. Time Line:

Parties agree that the format for the measurement report to be utilized by all, shall be designed and formalized by August 1, 2016.

A tentative schedule of frequency scanning activities to be executed shall be set by August 1, 2016. This schedule, in the interest of effectiveness, shall solely reflect the number of scans to be performed per annum by parties.

Concluded scans shall be formalized in the measurement report within **48** hours of the scan activity concluded. The Party having compiled, or for whom a report has been compiled, shall submit a copy of same to all other parties within **72 hours**, of the formalization of the compiled report.

Frequency scanning activities shall in any event be undertaken in the fourth quarter of 2016.

4.0. Development:

Parties further agree to make an assessment of the execution of this Protocol by January 2017, in an effort to determine the requirements to further develop and/or enhance this coordinated undertaking. Parties shall work towards usage of the most convenient and available resources to ensure that the scanning schedule is maintained and executed in the most cost effective manner to all.

The costs associated with a two-day scanning undertaking are estimated to range between **600-1000** USD Dollars. Any party requesting its scanning activities to be conducted by another party shall bear the costs related thereto. The cost ratio includes the scanning and the

compilation of the measurement report. Parties shall mutually agree on the manner in which the costs shall be invoiced and which payment terms shall apply.

5.0. Termination:

This Protocol can be terminated with a 60 day notice issued by the departing party to all other parties. As of the termination date no rights and obligations may be derived from this Protocol by the departing party.
